## DRIVEN BY INNOVATION

Leading with innovation, EZRED's focus is to design, manufacture and deliver the highest quality tools and lights through partnerships and global brands. With excellence in customer service and our unique understanding of markets, EZRED provides complete customer solutions to our partners.

In 1966, Tommy Tucker started EZRED as a battery tool and accessory company in upstate New York, since then EZRED has continuously grown and expanded its organization. Now serving the professional and consumer markets worldwide with specialty hand tools, tool organizers, LED flashlights and work lights. In 2012, Caterpillar selected EZRED to be the only global licensee for CAT LED Flashlights and Work Lights and this partnership holds strong today.

As a vertical company, EZRED has refined the innovation and go-to-market process. As a result, EZRED has the capabilities to rapidly achieve customer designs and product exclusivity, while controlling costs and reducing lead-times. This puts EZRED in a unique position to help our customers meet and exceed their goals.
